

A square maze with a complex network of black walls. A dashed line indicates a solution path starting from a small square at the bottom right corner and ending at a triangle at the top left corner. The path starts by moving up, then left, then up again, navigating through several turns and dead ends before reaching the exit at the top left.

A black and white maze with a dashed line path. The path starts at a small square in the bottom right corner, moves left, then up, then left again, and continues in a series of turns through the maze. The path ends at a small square in the top left corner. The maze is composed of solid black lines forming walls and openings. The path is a dashed line. The path starts at a small square in the bottom right corner, moves left, then up, then left again, and continues in a series of turns through the maze. The path ends at a small square in the top left corner.
